

AMENDMENTS

Please amend the above-identified application as follows:

In the Claims

In accordance with 37 C.F.R. § 1.121, please substitute the following clean copy text for the pending claims of the same number:

- 1 1. (Once Amended) An organic light emitting device, comprising:
2 an electrode;
3 a current self-limiting structure; and
4 an organic stack located between said electrode and said current self-
5 limiting structure, where said current self-limiting structure is applied in a
6 thickness sufficient to prevent excessive current in the vicinity of a short in said
7 organic light emitting device.

- 1 10. (Once Amended) A method for increasing the reliability of an
2 organic light emitting device, comprising the steps of:
3 forming an organic light emitting device; and
4 incorporating a current self-limiting structure within said organic light
5 emitting device and non-adjacent said organic stack, said current self-limiting structure
6 applied in a thickness sufficient to prevent excessive current in the vicinity of a short in
7 said organic light emitting device.
